

No Strings Theatre COVID-19 Protocol June 2024 update.

As much as we wish it weren't so, COVID is still in our midst, and we intend to take necessary precautions.

No Strings Theatre complies with all guidance from the Government of Ontario and Toronto Public Health to protect the safety of our team.

We are asking all members of the company to:

SELF-ISOLATE if you are experiencing COVID-19, cold symptoms, or have had close physical contact with a person with symptoms or confirmed positive within the past 7 days. Rapid-test daily and return showing a negative test result for 5 consecutive days.

RAPID TEST:

Once a week

- during rehearsals. We can't guarantee that we will have rapid tests available. Kindly check out supplies at your local drug store or check this source [online](#).

Daily

- during Tech week and Show runs.
- If you have traveled outside of the country within the past 5 days

You will be required to show proof of negative test results above before being admitted to rehearsals.

At this point, we are not requiring anyone to mask during rehearsals. If you have concerns with any of this, please let us know. Your comfort and safety are priority!
